1. Remember that this 10-minute test is worth 20 percent of your mark. Take your individual practicing for this very seriously. It is only up to you whether you pass or fail.

2. 3-5 minutes before your exam is supposed to start, you should be sitting in your chair all set to go. Do not knock or interrupt another exam - just sit and wait to be invited in.

3. Play the four sections of the exam in any order you want. I recommend that you do them in the order listed above. If you don't want to do them in that order, write down the order you want to do them in and give it to me as you enter the exam room.
